

JOAN CORTÉS

UNITY
PROGRAMMER

PROFESSIONAL SUMMARY

- 2 years of professional experience
- +4 years of personal experience
- Proficient in Scaling and maintaining systems
- Specialized in tools development for video games

PROFESSIONAL EXPERIENCE

Unity Developer (gameplay and tools)

- Team Garden (2021 - 2023)
 - Built a **Bezier line curve editor**, using Unity's custom editor tool, allows designers to simulate multiple scenarios:
 - An **automated cable railway system** that moves the player from
 - An **in-game electrical system** that allows players to conduct electricity to solve in-game puzzles
 - Collaborated with artists and designers to code the entire **final boss gameplay** logic, including multiple boss stages, to provide the player with a fun experience that tests all the skills learned during the main game experience
 - **Refactored and modernized legacy code** from older projects, improving performance and scalability by applying SOLID and Clean Code principles.

PERSONAL EXPERIENCE

- Developed a multiplayer RTS game using Mirror and FizzySteamworks
- Worked in large teams (+10 people)

HARD SKILLS

- Unity 3D/2D, Unreal 5
- SOLID, Clean Code and design patterns to achieve scalable code.
- Git, Subversion
- C#, Python
- VR/AR, Vuforia
- Scrum, Kanban
- Mirror, Netcode for GameObjects, Zenject, MI-Agents, Test Framework

SOFT SKILLS

- Goal Oriented
- Critical Thinker
- Pair programmer
- Code reviewer
- Adaptative and resolute

STUDIES

Postgraduate Certificate in Video Game and Virtual Reality Development

- Institut Pedralbes (2024 - 2025)
 - Unreal 5, AI Agents, AR/VR
 - Best student of the course (Highest Grade Award)

Advanced video game programming with Unity Bootcamp

- Level Up [Game Dev Hub], (2021 - 2022)
 - Advanced Unity knowledge (Profiler)
 - Organizational knowledge (focused on best practices for code production)
 - Production knowledge (parallelization in workflow)
